AIRTILITY PROGRAM

PAY FOR THE POWER YOU NEED, NOTHING MORE.

- We provide the complete compressed air system and maintain it for peak efficiency.
- You purchase compressed air, not equipment.
- Any piece of equipment offered by Comairco can be added to an AIRTILITY program.

AIRTILITY by Comairco is a turnkey compressed air solution that delivers air as a utility. With over 50 years of compressed air expertise, Comairco provides reliable, cost-effective compressed air for a fixed monthly fee based on usage. You don't need to own, manage or maintain any equipment. Free your company from the TCO (total cost of ownership). Comairco assumes the risk, so you can focus on your business.

How AIRTILITY Works

- Custom system design for maximum efficiency.
- State-of-the-art equipment and advanced controls.
- Continuous monitoring and performance optimization
- Guaranteed air supply based on demand.
- Predefined costs for the full contract term.
- Predictable fixed monthly costs.

Business Benefits

- No capital investment required.
- Consumables, parts, maintenance, and break fix repairs included.
- Improved air quality, uptime, and efficiency.
- Reduced administrative workload.
- Minimal downtime and protected production.
- Maintenance teams focus on higher-value tasks.

Combined Value Proposition

Together, Comairco Rental Services and the AIRTILITY Program provide complete compressed air solutions for any operational scenario:

RENTAL SERVICES Perfect for immediate, short-term, planned maintenance, or emergency needs.

AIRTILITY PROGRAM Ideal for long-term, cost-stable, worry-free compressed air supply with no capital investment.

Together, these solutions ensure businesses benefit from a reliable, efficient and high-quality compressed air supply. Whether you need temporary, permanent, or fully outsourced compressed air power to run your operations, we ensure uninterrupted production. This allows you to focus on your core business.

Pay for the AIR you need
